

E-posters

This is a new feature at this year's ESPN. You can view any e-poster on any of the 5 display boards.

Moderated poster sessions for selected posters take place on Thursday and Friday at 2pm. For details of each session and where they take place please see the [poster page](#) of the website.

Static posters

There are over 400 posters this year. To make it easier to navigate your way around those that interest you, we have divided them into sections and colour-coded the sections as follows:

THURSDAY	FRIDAY
Bladder and UTI	Clinical case of the year
Transplantation	Psychosocial
Acute kidney injury	Nursing
Hypertension	Nutrition
Chronic kidney disease	Personalised medicine
GFR	Dialysis
Biopsy	Immune mediated disease
CAKUT	Inherited disease
Nephrotic syndrome	HUS
	Tubular disease

All of the abstracts for the posters are available now on the conference website.

Industry

There are lots of industry stands at this year's ESPN. Industry sponsorship is vital to the society. By partnering with industry we can make a difference for future generations of children with kidney disease. Companies are interested in your views on future products so please visit the stands and engage with our industry colleagues.

Industry

There are two lunchtime symposia happening this ESPN.

On Thursday lunchtime [Fresenius Medical Care](#) have a symposium (1pm, Lomond Auditorium) asking the question: Can we improve dialysis outcomes in children. See the programme [here](#) and do consider coming along.

On Friday lunchtime (1pm Lomond Auditorium), [Advicenne](#), a French company who develop drugs for children with renal and orphan diseases, have their symposium asking the question: How can we improve distal renal tubular acidosis management? See the programme [here](#).

Both companies also have stands in the exhibition hall where you can find out more details about their products.

Go by bike instead of train or bus!

Glasgow is a great cycling city and the SEC, as a healthy venue, are keen to encourage people to get on their bikes. The city has a popular bike hire scheme similar to London.

There are 170 bikes for hire in 31 different locations across Glasgow available at any time.

You can rent a bike via nextbike's [Android](#) or [iPhone](#) app by the on-bike computer, or by phoning 020 816 69851. Rental starts at £1 for the first 30 minutes.

Getting by in Glaswegian

Glaswegians are amongst the friendliest city-dwellers in Britain but the Glasgow dialect isn't always the easiest to understand.

Most Glaswegians won't mind being asked to speak more slowly but if you want to get ahead of the game you might want look out some YouTube footage of Glasgow's own street philosopher – [Rab C Nesbitt](#) (preferably with subtitles if you can find them).

Alternatively, a suitable phrase book such as [The Complete Patter](#) or [Ra Wee Book a Glesca Banter](#) will give you all the phrases you will need to buy your souvenir whisky or shortbread to take home!

In the final briefing on Monday:

- Find out how to access free wi-fi at the SEC
- Learn what you can do with the conference app
- Find out about all the concurrent meetings
- Hear about the Medtronic and Chiesi Orphan symposia

Remember all of these conference briefings are available on the [conference website](#).
